

Student Team Projects: A Capability Statement of Student Work

My teaching philosophy and instructional approach has produced training and other performance improvement solutions with a broad reach in and beyond Boise State. A list depicting 100+ projects in the settings where Organizational Performance and Workplace Learning (OPWL) practitioners work (business, government, military, and nonprofit settings) appears below.

#	Semester	Client	Need	Solution	Class
1.	FA 2017	Meridian Canine Rescue (MCR)	<p>Meridian Canine Rescue (MCR) is a nonprofit, no-kill canine rescue dedicated to giving homeless and owner-surrendered dogs a second chance. Too often shelter animals are not given the time to find new families and guardians because of overcrowding. MCR works to reduce the number of homeless and owner surrendered dogs in shelters, both locally and regionally, without the need for euthanasia.</p> <p>For Meridian Canine Rescue (MCR) to be successful in its mission to rescue and place dogs, they need all Adoption Counselors to consistently facilitate the placement process. When the placement process is facilitated correctly, fewer dogs are returned to the shelter after placement and the adoptive families are happy with the process.</p>	<p>A blended training with self-paced training and structured on-the-job training at MCR was determined to be the best fit for the scope, budget, and limited staff availability at MCR. The project team developed an instructional plan to train Adoption Counselors (AC) to facilitate the pairing process during adoption shifts, so each dog is adopted by a family with a suitable and safe home. The goal of the proposed program is to reduce the returns of adopted dogs to less than 15%.</p>	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
2.	FA 2017	Tutor Doctor Hawaii (TDH)	A central goal for the company is to expand its business during the summer (increased organizational capacity and growth). The volume of business is largely tied to providing services when students are in school. TDH's parent company, Tutor Doctor, has designed its tutoring model around working with students' teachers to meet learning objectives that are set by students' schools (tutors are required to collaborate with students' teachers). As a result, business drops substantially when school is not in session. To prevent this drop in revenue, TDH plans on advertising a summer program tailored to the individual needs of students (and their parents). With an advertising campaign in place, TDH expects to increase the number of parents seeking TDH services during the summer. But since tutors won't be required to collaborate with schools as they do during the regular school year, tutors will need to create effective lesson plans.	<p>A solution was proposed with the goal of training tutors who teach in the summer and are working with students not enrolled in summer school to create and deliver lesson plans that (1) accurately follow the Lesson Plan Training Guide 80% of the time and (2) align with the needs of students they are tutoring.</p> <p>Since instructor-led training in a traditional classroom would be challenging due to facility constraints and varied tutor schedules, the team developed a virtual training plan for the tutors with a print-based workbook and a self-paced online course.</p>	OPWL 537 Instructional Design
3.	FA 2017	Yellowstone Boys and Girls Ranch (YBGR)	The residential psychiatric treatment facility needs its mental health workers to manage milieus quickly and effectively. Managing a milieu means taking advantage of normal conflict that arises and turning it into a learning moment. When conflict is not used as a learning moment it often escalates and that escalation can lead to violence. Once imminent harm is apparent to the client or to staff, a restraint or relocation must then be enacted. Effective milieu management requires practice, experience, coaching, and feedback because no two situations will ever be alike.	Based on analysis, the project team defined the standard for milieu management to be mental health workers predict escalations within two minutes and provide immediate interventions resulting in a reduction in the need to use physical restraints and relocations. To prepare mental health workers to meet this standard, the team drafted a plan for instructor-led training in a live classroom setting. Their plan outlines simulated role-plays with real-time feedback and coaching that are necessary for the retention and transfer of this dynamic skill.	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
4.	FA 2017	Komen Idaho Montana	Increasing fundraising dollars is a primary goal of Komen Idaho Montana because it is a self-sustaining non-profit organization with service commitments to the Idaho and Montana markets. To meet the financial commitments, Komen Idaho Montana must maintain a regular flow of donations from a variety of donor sources. Potential donors often interact with the organization through contact with race volunteers, asking questions related to the services and structure of Komen Idaho Montana, and will make donation decisions based on the information received through questioning their race volunteer contact. The success of fundraising efforts with these donors is directly related to the ability of the volunteer to “sell” the organization and to answer questions about Komen Idaho Montana accurately and confidently, or properly escalate the question to the correct resource.	To help race volunteers answer questions related to donations with 85% accuracy, 90% confidence, and 90% proper escalation, the project team created an instructional plan and performance assessment tool. The team recommended training conducted in an instructor-led format in a virtual classroom setting. Due to organizational limits, use of Zoom (a free service that is currently in use in the organization) will be the primary medium. The technology is familiar and will not distract the volunteers from the objective of the training. The training can be conducted in several sessions to allow for it to occur close to the time of race events when it will be most relevant to the volunteers.	OPWL 537 Instructional Design
5.	FA 2017	Verizon and Cellular Sales	Cellular Sales needs its B2B sales representatives to conduct a discovery appointment to gain the information needed to present a solutions proposal. A discovery appointment is the first meeting between a B2B sales representative and a potential business customer. This meeting provides the opportunity to build a relationship with the client and obtain the information needed to create a solutions proposal for the business, which is presented in a follow-up appointment. Following the method established by department leadership enables the company to acquire new subscribers.	The project team conducted a thorough needs, performance, and task analysis to propose an appropriate training intervention. The primary delivery mode for this training will be instructor-led training via traditional classroom. This delivery mode was selected based on the client's request to have a traditional in-class training program. Utilizing an ILT method will allow for the opportunity to include group discussions and role plays. This will also allow the trainer to provide feedback during and after role plays.	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
6.	FA 2017	Boise State University Testing Center	<p>One of the Testing Center's organizational objectives is to promote student development. They want to build a connection between academic study and student work by enabling student employees to recognize and take ownership of opportunities they have in the Testing Center.</p> <p>Another objective is to provide consistent accurate Scantron reports to faculty within their expected timeframe. Consistent Test Scanner performance will contribute to the organization's goal to maintain a positive reputation in the organization and deliver services in a timely and accurate manner that supports effective teaching.</p>	<p>The project team developed an instructional plan to train test scanners to complete special grading requests and recognize all errors in a graded Scantron. The training focuses on building the skills for running a report and for troubleshooting problematic reports.</p> <p>The training would ideally take place in the same context as the performance, to maximize transfer of troubleshooting skills. This indicates that some training should be on-the-job with the department's Scantron device, or at a minimum with evaluating real incorrect Scantron reports.</p>	OPWL 537 Instructional Design
7.	FA 2017	St. Luke's Health System Library	St. Luke's Health System is a seven-hospital healthcare system with locations in both urban and rural areas of Southern Idaho. St. Luke's is Idaho's largest private employer with approximately 16,000 employees and members of its various medical staffs. The organization needs its nurses conducting research to conduct literature searches using the library databases.	The team identified a performance gap through a performance analysis and created an instructional plan that trains nurses on how to conduct evidence-based research using the St. Luke's Library online databases, collections, and tools. The training program will cover how to navigate the St. Luke's Library website and how to find high quality research articles that support their performance improvement project.	OPWL 537 Instructional Design
8.	FA 2017	Ada Canyon Medical Education Consortium (ACMEC)	ACMEC is a nonprofit whose purpose is to provide educational activities to meet the medical information needs of the physicians of Southwest Idaho. ACMEC needs its CME Activity Coordinators to submit complete CME applications that are free of errors and in compliance with ACMEC requirements and official criteria. Closing this performance gap would lower operational and franchise risks and increase organizational capacity and growth.	To be able to provide coaching, immediate feedback, and help build a learning community, a traditional classroom setting was selected as the primary mode of delivery for this training, which includes the elements of other preferred modes (i.e. review of instructions/resource documents). To meet the strong preference for self-directed learning, recordings of the training session will be made available to learners after the session, along with the resource documents and job aids.	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
9.	SP 2017	Mac GDO	The Mac GDO customer service line is spending 30% of their time on the phone with self-employed sales technicians to walk them through the basic installation of garage door operators. This is preventing the Mac GDO customer service team from answering other customer's phone calls and returning missed calls. Self-employed sales technicians need to install Mac GDO garage operators within 40 minutes as designed and engineered by Mac GDO engineers without relying on the Mac GDO customer service hotline team for basic installation step-by-step instructions.	The ID team recommended classroom training, structured on-the-job training, and just-in-time performance support videos that take sales technicians step-by-step through the process of basic installation. The videos are designed to be downloaded to the sales technician's smart phone for easy access when needed.	OPWL 537 Instructional Design
10.	SP 2017	Engage Platform	The software provider wants to help system administrators at 1,300 worldwide customer organizations better utilize the software. Specifically, the system administrators need to be able to set up new users within 15 minutes and resolve user issues within 5 minutes, only contacting Tier 2 Support in less than 10% of cases.	The ID team designed three live virtual instructor-led training units, 60 minutes in length. This method allows for real-time interaction with the instructor and hands-on practice with feedback in a simulated job scenario. The ID team recommended spacing training out to one per week for three consecutive weeks to allow for maximum retention. The ID team further recommended providing user manuals and technical documentation to the audience of the trainings.	OPWL 537 Instructional Design
11.	SP 2017	Delman Corporation	<ul style="list-style-type: none"> The employees at the client organization are committed to providing exceptional service to every customer. Newly hired customer service representatives should be able to locate a customer in one of two systems, interpret plan documents, and accurately answer customer's questions or concerns. This should all be done with an average call time of 4.5 minutes or less. 	<ul style="list-style-type: none"> The ID team recommended a traditional classroom training due to the complexity of the systems and the amount of practice the learners would need to become proficient. The ID team designed training to give learners practice in locating the correct customer policy information and matching that with the system information as a verification step. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
12.	SP 2017	ABC Chip Company	<ul style="list-style-type: none"> Regional Development Specialists at the company need to use Excel Pivot Tables to consolidate data and produce output in a clear format. This will achieve the company's goal to support fleet sustainability through efficient distribution routes and effective use of route drivers' time to avoid long hours for staff and overtime costs for the company. 	The ID team designed a plan for instructor-led training within an existing onboarding program, a performance support document, and an additional self-paced online module as a refresher course when needed.	OPWL 537 Instructional Design
13.	SP 2017	A nationwide hospital system	<ul style="list-style-type: none"> The hospital system has charted a strategic imperative to promote clinician leadership at its five hospitals. They need to prepare clinicians, who are already in a leadership role, to influence and engage an executive-level audience. Currently, clinician leaders in the client organization have little experience presenting ideas on strategy to executives in virtual meetings confidently and effectively. 	<ul style="list-style-type: none"> The ID team designed a virtual instructor led training (vILT), containing videos demonstrate the task of identifying and gathering information about an issue for discussion during an executive meeting The ID team designed practices to learn how to use job aids for the critical tasks, followed by feedback sessions with expert instructors. 	OPWL 537 Instructional Design
14.	SP 2017	Washington State Guard Emergency Communication	The mission of the Washington State Guard is to provide organized units that are equipped and trained in the protection of life or property and the preservation of peace, order and public safety under competent orders of State authorities. Team members need to transmit digital messages within 4 minutes of message receipt and with less than 2 errors in the message when deployed in emergency situations.	<ul style="list-style-type: none"> The ID team decided the small amount of team members make instructor-led training ideal as the cost to produce and maintain a self-paced training program would be more expensive for this volunteer driven organization. The ID team created a checklist to lead the client's team members through the standard configuration and setup of the broadcast software. The checklist ensures consistency with the configuration and will leave face-to-face time for learning the task of transmitting messages and troubleshooting. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
15.	SP 2017	Embassy Management	Embassy values quality services to achieve their vision of being the provider of choice. In alignment with the current incentive "We Say Yes," Embassy is looking to expand their ability of providing care to residents with more significant behavioral and health concerns. To prepare for this higher demand of skill in DSPs, Embassy is looking to create a training program designed to improve DSP performance in crisis situations.	The ID team designed a flipped classroom, blended learning solution including self-paced online training, instructor-facilitated practice, and supervisor one-on-one assessment. Because performance of this task includes the use of interpersonal skills, DSPs will need face-to-face opportunities for application through role play of a variety of realistic scenarios where they can also receive immediate feedback and coaching from	OPWL 537 Instructional Design
16.	SP 2017	A private management consulting firm	1. The company wishes to improve quality in service and product excellence through standardization of processes. Employees need to share best practices with each other by using Sharepoint to store information so that others can easily find it and utilize it.	The ID team designed instructor-led training for employees to practice identifying triggers that tell them to store relevant knowledge. These triggers include: <ul style="list-style-type: none"> Working on a team project Creating a client-facing document or resource 1. Completing a work document or process	OPWL 537 Instructional Design
17.	FA 2016	Northwest Lineman College	Training Specialists need to provide effective feedback during formal student evaluations that: <ul style="list-style-type: none"> Assesses cumulative performance level. Completes assessment performance rubrics in a timely manner. Conducts the face-to-face formal evaluation, using the completed performance rubric effectively.	The ID team designed instructor-led training for training specialists to practice assessing unacceptable student behavior performance. The ID team also created a worksheet for training specialists to determine that: <ul style="list-style-type: none"> Student files contained the necessary data. They could make decisions on student behavior based on the existing data. Hold consultation conversation to assess undesirable behaviors.	OPWL 537 Instructional Design
18.	FA 2016	Northwest Lineman College	Admissions consultants (ACs) need to create brief but descriptive subject lines that summarize their interactions with potential students. Each subject line must include at least five essential elements that will record the actions that have occurred.	The ID team created a job aid and designed instructor-led training for ACs to practice typing descriptive subject lines that includes all five essential elements, comprised of 80 characters or less, in this prescribed order: the action taken, purpose of the action, how contact was attempted, result of the attempt, and any follow-up action.	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
19.	FA 2016	Valin	<p>Customer service representatives (CSRs) need to resolve common eCommerce problems for customers in ways that:</p> <ul style="list-style-type: none"> • Reduce call duration by 15% from current baseline, which is based on the previous four months (June, 2016-Sep, 2016) in the ticketing system. • Increase accuracy from current baseline. <p>Meet the quarterly goal 7.5% of automating sales order entries and invoices on eCommerce.</p>	<p>The ID team designed eLearning “quasi-training” that allowed CSRs to practice using job aids until they became comfortable performing the following tasks:</p> <ul style="list-style-type: none"> • Specify customers’ problem(s) • Register customers • Help customers check out • Inform customers of product lead time • Initiate RMAs • Find product quotes • Reset passwords <p>Unlock customers</p>	OPWL 537 Instructional Design
20.	SP 2016	Special Olympics Northern California	<p>Coaches need to create and follow an effective practice plan for each practice that includes five key components:</p> <ul style="list-style-type: none"> • Warm ups • Previously taught skills • New skills • Competition experience <p>Cool-down and feedback</p>	<p>The ID team designed self-paced training using a “lower tech” eLearning approach comprised of include: embedded YouTube videos, textboxes for learner replies, hyperlinks to certain sections of a print-based workbook, job aids, and sports-specific resources. Coaches used these resources to build a practice plan.</p>	OPWL 537 Instructional Design
21.	SP 2016	U.S. Coast Guard	<p>Watch standers in Sector San Juan need to handle pier mooring lines as cutters dock safely, in ways that avoid:</p> <ul style="list-style-type: none"> • Mishandling the line. • Improper attachment of the line to the pier. <p>Miscommunications.</p>	<p>The ID team designed a combination of self-paced training, structured on-the-job training, and instructor-led training for watch standers to practice:</p> <ul style="list-style-type: none"> • Receive the line. • Handle the line. <p>Affix the line.</p>	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
22.	SP 2106	An Elementary School in Idaho's Treasure Valley	<ul style="list-style-type: none"> Teachers need to develop differentiated reading instruction for on-level and above-level readers that is 95 percent correct and appropriate to the diagnostic results of the students. 	<p>The ID team designed instructor-led training for teachers to practice:</p> <ul style="list-style-type: none"> Planning Journeys Reading Curriculum engagements that correspond to the individual reading skill groups. Planning Journeys Reading Curriculum support that corresponds to the individual reading skill groups. Identifying individual student homework activities that corresponds to the student reading skill level as well as remain within the prescribed time limitations. 	OPWL 537 Instructional Design
23.	SP 2016	A Florida Beach Resort	Managers and executives need to have Supportive Performance Conversations (SPCs) with their direct reports that occur at least once during each quarter, and that contribute to an average score on the 2016 Associate Opinion Survey equal to a 4.0 or above on the item "I have discussed my progress with someone at this property in the last six months."	<p>The ID team designed instructor-led training that used role play activities for managers and executives to practice:</p> <ul style="list-style-type: none"> Build positive working relationship. Provide motivational feedback. Provide developmental feedback. Commit to SPC follow-up. The team also created a job aid that managers and executives used to facilitate these conversations. 	OPWL 537 Instructional Design
24.	FA 2015	P.F. Chang's	<p>Wok cooks need to cook Mongolian Beef that is:</p> <ol style="list-style-type: none"> Prepared according to the recipe. Cooked correctly, using proper techniques. Finished within 2 minutes 10 seconds \pm 10 seconds. Plated by mounding in center of a freestyle plate. <p>Cooked without injury to Team Members or damage to equipment.</p>	<p>The ID team designed structured on-the-job training where wok cooks practiced all of the steps to complete this dish:</p> <ol style="list-style-type: none"> Oil velvet Rinse the wok Necklace Wok Oil Bao Syang (quickly stir fry the aromatics) Build Sauce Stir-Fry Finish 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
25.	FA 2015	Institute of Nuclear Power Operations (INPO)	Administrative services staff need to schedule a variety of activities for internal customers in a manner that is timely, accurate, and free of conflicts.	The ID team designed instructor-led training that used role play exercises for staff to: <ul style="list-style-type: none"> • Collect relevant information pertaining to INPO-sponsored meeting • Determine if the meeting request requires additional resources • The team also created a Scheduler Meeting Data Collection job aid that staff used to complete these tasks. 	OPWL 537 Instructional Design
26.	FA 2015	Seton Healthcare Family	Emergency department nurses need to spend more time on direct patient care by minimizing the amount of time they otherwise spend looking for and retrieving needed items in a storage room.	The ID team designed instructor-led training where nurses practiced using a 5S job aid to: <ul style="list-style-type: none"> • Select red-tagged items to keep. • Store kept items in a visible and agreed-upon location. • 	OPWL 537 Instructional Design
27.	SP 2015	U.S. Coast Guard	Coast Guard personnel at field units in Alaska holding meetings with representatives from a federally recognized tribes or Alaska Native organizations need to communicate what the CG is doing in the region, ask for the tribal perspective, and respond to tribal questions and concerns.	<ul style="list-style-type: none"> • The ID team designed instructor-led training that used role-play exercises to let teams of CG personnel practice soliciting the tribal perspective, questions, and concerns. The team also created a job aid that CG and tribal representatives would use to facilitate their meetings. 	OPWL 537 Instructional Design
28.	SP 2015	A university research lab	The lab director needs researchers to develop their MATLAB software (code) following methodology using test-driven development, by designing the Application Programming Interface (API) and writing unit tests that exercise and test the API in line with a new code coverage standard.	<ul style="list-style-type: none"> • The ID team designed instructor-led training where researchers practiced writing a custom API for a given research question and analytical tasks. The team also created an API job aid and a glossary of data types with definitions and examples. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
29.	SP 2015	G & B Environmental	<ul style="list-style-type: none"> To improve customer satisfaction and revenue while reducing rework, service technicians need to perform complete service on scheduled equipment based on the packing slip and discuss the services provided along with additional service that the client might need. 	<ul style="list-style-type: none"> The ID team designed instructor-led training that used role play exercises to emulate the discussions that techs had to review the job with the client and any problems the tech identified with the equipment. The training also employed ride-alongs with the sales manager and follow-up meetings to identify and remove potential barriers to skill transfer. 	OPWL 537 Instructional Design
30.	SP 2015	Idaho Humane Society	<p>Volunteers need to walk and handle level 3 shelter dogs in ways that are</p> <ul style="list-style-type: none"> Safe for the animals, volunteers, staff, and public; <p>Supportive in reducing kennel stress and improving the mental state of the Level 3 dogs to reduce the euthanasia rate and increase the adoption/retention rate</p>	<p>The ID team designed instructor-led training to teach volunteers to convert a plastic slip leash into a harness and walk the dog. The training also provided opportunities for volunteers to practice</p> <ul style="list-style-type: none"> Determining whether a dog was exhibiting aggression, rambunctious behavior, becoming hard to control or pulls excessively on the leash. Perceiving potential safety threats to the dog, volunteers, and the public 	OPWL 537 Instructional Design
31.	FA 2014	JM Key Bank	<p>Regional Training Contacts must coordinate training implementation to ensure course attendance and the provision of the appropriate training resources. Meeting these responsibilities requires these Contacts to hold crucial conversations with potential learners and their managers.</p>	<p>The ID team designed flipped training that included:</p> <ul style="list-style-type: none"> A planning form model for influencing others. A planning worksheet for influencing others. Self-paced eLearning video demonstrations. <p>Virtual instructor-led training using authentic practice exercises and assessment.</p>	OPWL 537 Instructional Design
32.	FA 2014	AirBorn	<ul style="list-style-type: none"> Members of the wire prep team must strip wire to meet customer specifications and then use a microscope to inspect the wire for defects. 	<p>The ID team designed instructor-led training that included:</p> <ul style="list-style-type: none"> Step-by-step instructions depicting how to strip wire. A job aid for inspecting stripped wire for defects. Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
33.	FA 2014	U.S. Coast Guard--Great Lakes and Northeast Regions	When freeing vessels beset by ice, officers on Deck (OOD) must collaborate with bridge personnel to evaluate the situation, incorporating Operational Risk Management procedures prior to approaching the beset vessel.	The ID team designed a flipped training approach that included: <ul style="list-style-type: none"> • A planning form model for influencing others. • A planning worksheet for influencing others. • Self-paced workbook containing demonstrations and initial practice exercises. • Structured on-the-job training using authentic practice exercises and assessment occurring on the bridge. 	OPWL 537 Instructional Design
34.	FA 2014	Boise State University Student Recreation Center	Front desk staff must answer patron questions about Rec Center services within two contacts or less by using effective customer service practices and standards. Performing this task requires asking any clarifying questions, rewording the patron's question, using available resources to answer routine questions, and escalating non-routine questions to someone who can answer them.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • A CARE (clarify, acknowledge, resolve, ensure) process diagram. • A job aid for answering routine patron questions. • Authentic role-play demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
35.	FA 2014	Alfa Laval	Field Service Engineers (FSEs) must troubleshoot and repair decanter centrifuges. Meeting these responsibilities requires FSEs to communicate to customers to alert them to the resources they'll require to troubleshoot equipment problems onsite and then to facilitate an on-site planning meeting.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • A Customer Call Checklist. • A Troubleshooting Information Sheet. • An On-site Discussion Checklist. • Authentic role-play demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
36.	FA 2014	North Shore- LIJ Health System (NSLIJ) Center for Learning and Innovation	Help desk agents must write trouble tickets that contain accurate, complete, and relevant information about the problems that callers experience using the organization's learning management system. Callers are not always forthcoming with this information. Writing such tickets will decrease average call time and decrease the number of inappropriately escalated tickets.	The ID team designed eLearning that included: <ul style="list-style-type: none"> • An overview of the trouble ticket process. • An online form for recording caller problem information. • A troubleshooting job aid. • Authentic role-play demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
37.	FA 2014	Lexmark International, Inc., Global Organizational Change Management	Global Sub-process Owners and Global Process Analysts must independently correct the 4 identified common errors in the use of Business Process Mapping Notation (BPMN): <ul style="list-style-type: none"> • Incomplete Business Process Maps • Incorrect BPMN Symbol Choice • Incomplete Business Process Map Labeling • Incomplete Start/End Events 	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • BPMN Common Errors Job Aid • Worked examples with callouts • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
38.	SP 2014	Joanna Briggs Institute	The Joanna Briggs Institute (JBI) is a growing, dynamic international collaboration involving nurses, medical and allied health researchers, clinicians, academics and quality managers across 100+ countries in every continent. Authors writing medical protocols for the JBI must meet referencing standards to pass editorial reviews.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • A job aid for selecting protocol choices. • A job aid for referencing protocol sources. • A process checklist for protocol writing. Authentic demonstrations, practice exercises, and assessment.	OPWL 537 Instructional Design
39.	SP 2014	Tutor Doctor	Tutors working with grade 6-12 students seek to improve students' metacognitive skills using the X-Skills Academic Gameplan to review checklists, prioritized tasks, and daily check-in calls. Tutors must facilitate challenging conversations when students do not meet their learning responsibilities.	<ul style="list-style-type: none"> • The ID team designed instructor-led training that included authentic role-play demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
40.	SP 2014	Unites States Army Intelligence Center of Excellence (USAICoE) Noncommis-sioned Officer Academy (NCOA)	Instructors must write and submit Academic Evaluation Reports (AERs) detailing the performance of their students during a course. In addition to meeting stated policies and guidelines, these reports need to: <ul style="list-style-type: none"> • Accurately reflect students' daily performance, accomplishments and deficiencies. Objectively reflect students' suitability for promotion and retention within the military.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • An AER job aid, including the AER review and approval process. • A decision matrix for writing AERs. • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
41.	SP 2014	Answered Prayers	This privately run daycare facility serves parents with children between 1 to 10 years' old. Staff must develop weekly lesson plans for their students that addressed appropriate cognitive and psychomotor skills—as well as customer expectations.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • An annotated lesson plan. • A decision table for determining daily learning activities • A decision table for specifying individual student assessments. Authentic demonstrations, practice exercises, and assessment.	OPWL 537 Instructional Design
42.	FA 2013	Peak Vista	This nonprofit health center provides premier medical, dental, and behavioral health services to low-income, underinsured, and uninsured people of all ages. Peak needed to decrease the number of need-stick incidents it experienced each year.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • Signage describing how to avoid needle stick incidents. • Signage describing how parents can safely restrain their children during injections. • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
43.	FA 2013	Idaho Humane Society	<ul style="list-style-type: none"> • Dogs in the kennel must go for walks 3 times a day. These dogs could be playful, nervous, fearful, or aggressive. The volunteers who walk these dogs must read a dog's body language before the walk to determine they should walk a given dog at that time. Volunteers must also monitor the dog's body language during the walk. 	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • A quick reference guide that specified mouth, ear, eyes, and tail positions associated with different emotions (calm, happiness, excitement, submission, fear and aggression). • A visual reference guide that provided photos of different mouth, ear, eye, and tail "read" and recommended decisions for do not walk at this time, proceed cautiously, or walk. This guide also provided escalation guidance. • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
44.	FA 2013	MillerCoors	Process Leaders (PLs) must facilitate effective, open, and constructive team meetings in ways that enabled production teams to increase their operational efficiency.	<p>The ID team designed blended training that included:</p> <ul style="list-style-type: none"> • A job aid describing how to plan a meeting and create a meeting agenda. • A meeting agenda template. • A decision table for addressing common problems that arise during meetings. • A self-paced training workbook for planning meetings and creating agendas. • Structured on-the-job training for facilitating meetings, including authentic practice exercises and assessment. 	OPWL 537 Instructional Design
45.	FA 2013	Avista Utilities	Customer Service Representatives (CSRs) must resolve billing dispute conflicts, sometimes with irate and verbally abusive customers. Resolving these conflicts requires CSRs to use specified techniques to avoid escalating calls.	<p>The ID team designed instructor-led training that included:</p> <ul style="list-style-type: none"> • A job aid describing how to resolve customer conflicts. • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
46.	FA 2013	PPL Corporation	<ul style="list-style-type: none"> • Health Physics Technicians at a nuclear power plant must control radioactive contamination within the established contamination boundaries. This involves monitoring and correcting worker actions that can spread radioactive contamination to uncontrolled areas. 	<p>The ID team designed instructor-led training that included authentic demonstrations, practice exercises, and assessment.</p> <ul style="list-style-type: none"> • 	OPWL 537 Instructional Design

#	Semester	Client	Need	Solution	Class
47.	FA 2013	St. Luke's Health System	Employees must work independently to create their own annual individual development plans (IDPs)—with limited assistance from human resources personnel.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • A job aid describing how write action plans that were attainable, realistic, measurable, and specific (ARMS). • A job aid for preparing for a review of their IDP and its ARMS with their supervisor. • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
48.	FA 2013	Idaho Humane Society	Volunteers must properly handle and care for rabbits in IHS care. Rabbits are prey animals, and volunteers need to handle them carefully to avoid scaring the rabbits or harming them—or the volunteers themselves.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • Job aids illustrating how to <ul style="list-style-type: none"> ○ Approach and pet a rabbit. ○ Pick up, hold, and set down a rabbit. ○ Groom a rabbit. • Authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
49.	FA 2013	Horizon Software International	Sales representatives serving K-12 schools must diagnose K-12 food service inventory management problems so that the prospect recognizes the costs and risks associated with the status quo.	<ul style="list-style-type: none"> • The ID team designed instructor-led training that included authentic demonstrations, practice exercises, and assessment. 	OPWL 537 Instructional Design
50.	SP 2013	U.S. Coast Guard Force Readiness Command – Training (FORCECOM(t))	Training Managers (TMs) routinely counsel Program Managers (PMs) to help them complete Request for Analyses (RFA) of performance opportunities or problems. TMs routinely guide PMs through the creation of the RFA form and its approval process. FORCECOM(t) needed to reduce the rework rate associated with these forms.	The ID team designed instructor-led training that included: <ul style="list-style-type: none"> • A decision tool that TMs could use to identify key terms to align RFAs with appropriate analytic techniques. • Authentic demonstrations, practice exercises, and performance assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
51.	SP 2013	Ūsful Glassworks	<p>Production operators producing glassware for this nonprofit organization must meet quality control standards at each stage of the production process. Ūsful needed to improve performance of the following tasks:</p> <ul style="list-style-type: none"> • Inspect the quality of glassware entering the lapidary and lathing stations. • Grind the glassware to specifications. <p>Ensure the quality of glassware leaving the lapidary and lathing stations.</p>	<p>The team created structured on-the-job training for the lapidary and lathing stations. The training included:</p> <ul style="list-style-type: none"> • Signage specifying quality standards at each station. • A handbook for each station that <ul style="list-style-type: none"> ○ Provided a glossary of terms. ○ Illustrated common mistakes. ○ Provided step-step grinding instructions and illustrations. • Authentic demonstrations, practice exercises, and performance assessment. 	IPT 537 Instructional Design
52.	SP 2013	Idaho Humane Society	<p>Volunteers must match the right cat to the right people in the right setting. Guiding potential cat adopters in their cat selection would produce better outcomes for adopters, the cats, and the shelter, increasing the placement of cats into their “forever homes.”</p>	<p>The team created instructor-led training that included:</p> <ul style="list-style-type: none"> • A Cat Adoption Matching Form that patrons could use to enter information about their living space, lifestyle, and cat preferences. Volunteers used the information on the form to recommend several appropriate cats. • A Patron Interview Guide that volunteers used to talk with potential adopters and select cats best suited to them. • Authentic role-play demonstrations, practice exercises, and performance assessment. 	IPT 537 Instructional Design
53.	SP 2013	Boise State University’s eCampus Center	<p>Peer reviewers evaluate the online courses that other Boise State instructors have created to determine the extent to which they complies with quality standards. While peer reviewers typically offer constructive feedback regarding most of the quality standards, they often omit feedback regarding universal accessibility, an ADA requirement.</p>	<p>The ID team created instructor-led training that included:</p> <ul style="list-style-type: none"> • A form for determining the extent to which a given course met accessibility standards, including hot tips for finding supporting evidence and guidance for writing subsequent feedback. • Questions for framing constructive feedback. • Authentic demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
54.	FA 2012	Electro Industries / GaugeTech	<p>Meter technicians must:</p> <ul style="list-style-type: none"> • Determine what data they need to log for their facilities and equipment. • Use custom software to set up trending logs that will record relevant data. <p>Download and review the logged data.</p>	<p>The ID team created instructor-led training that included:</p> <ul style="list-style-type: none"> • Flowcharts depicting how to: <ul style="list-style-type: none"> ○ Set up scripts, devices, and commands. ○ Schedule data collection. ○ Locate the status of a current data collection script. • Step-by-step instructions depicting how to use the software. • Demonstrations, practice exercises, and self-evaluations. 	IPT 537 Instructional Design
55.	FA 2012	ProEdit	<p>Account Specialists must qualify a sales lead during initial phone calls. Faulty qualification decreases sales efficiencies and increases costs without increasing revenues. Some Account Specialists require several phone calls to qualify a sales lead.</p>	<p>The ID team created instructor-led training that used the Budget, Authority, Need, Timeline (BANT) method to qualify potential leads. The training included:</p> <ul style="list-style-type: none"> • Probing questions for BANT. • A form for collecting BANT information and determining lead qualification. • Role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
56.	FA 2012	U.S. Coast Guard Force Readiness Command – Training (FORCECOM(t))	<p>Training Managers must use a software system to determine whether there are adequate funds in a Program Manager’s budget to pay for the training they request. Program Managers typically outrank Training Managers.</p>	<p>The ID team created instructor-led training that included:</p> <ul style="list-style-type: none"> • A job aid for determining the experience level and needs of the Program Manager. • A job aid for offsetting training requests. • Tips for reporting bad news to Program Managers. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
57.	FA 2012	St. Alphonsus Healthcare System	Registered Nurse Health Coaches (RNHCs) help save healthcare costs by keeping high-risk patients with chronic conditions from needing more costly care in a hospital or emergency room. RNHCs must apply a coaching model so that the diabetes patients in their care would create a personal action plan with at least one self-management goal.	The ID team created instructor-led training based on the 5 A's model: assess, advise, assist, and arrange. The training included: <ul style="list-style-type: none"> • A job aid for writing SMART goals. • A coaching tool for providing self-management support (SMS). • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
58.	FA 2012	Medtronic Cardiac Disease Management Technical Services	Technical Consultants must provide accurate pacemaker implant information to nurses and physicians who call a hot line from operating rooms. These consultants must manage the call while troubleshooting the source of the problem.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Tip cards for managing calls. • Flowcharts depicting pacemaker troubleshooting procedures and fixes. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
59.	FA 2012	Easter Seals-Goodwill, Northern Rocky Mountain Inc.	Managers must write performance-centered job descriptions for their subordinates that contain: <ul style="list-style-type: none"> • Specific descriptions of job expectations. • Objective measurements. 	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Instructions for specifying job duties. • A job description template. • A Job Description Quality Checklist. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
60.	FA 2012	Mad Wreckin' Dolls	This nonprofit organization provides an opportunity for women of all sizes, shapes, and skill levels, age 18 and up to learn and play flat-track roller derby. To reduce or avoid injury, skaters must safely execute full-body blocks.	The ID team created flipped training that included: <ul style="list-style-type: none"> • Signage depicting blocking goals. • A self-paced workbook containing demonstrations and practice exercises for determining when to block. • Instructor-led training containing authentic demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
61.	SP 2012	Pepin Distributing Company	<ul style="list-style-type: none"> Explosive growth in the company's beer portfolio requires Account Managers (AMs) to be organized, efficient, and prepared to discuss diverse offerings with their retailers. Given the expanding nature of these offerings, AMs must access accurate and succinct information about their craft beers to recommend appropriate craft beer products in conversations with retailers. 	<p>The ID team created the Beer Portfolio Management Tools, which resided on AMs' laptops. AMs used the presentation to explore relevant craft beer options with their retailers. Using this tool, they could make recommendations based on:</p> <ul style="list-style-type: none"> Establishment type. Retailer craft beer preferences. Beer types and subtypes. 	IPT 547 Advanced Instructional Design
62.	SP 2012	Buffalo Wild Wings	Unchanged fryer filters increase costs by lengthening usage time, thereby requiring more repair and maintenance. Accidents involving fry filter burns had increased worker compensation claims. Fry cooks must change fryer filters safely, efficiently, and per the specified maintenance schedule.	<p>The ID team created workplace signage appearing on each fryer describing how to "Change the Filter...Like a Pro!" The laminated sign:</p> <ul style="list-style-type: none"> Specified when to clean the fryer filter. Specified protective equipment and tools. Provided step-by-step instructions with corresponding illustrations. Called out safety cautions and hot tips for improving task performance. 	IPT 547 Advanced Instructional Design
63.	SP 2012	Victoria Seniors for Health (VSH)	Yoga can help Seniors increase and maintain physical mobility (flexibility, strength, and balance). Seniors in yoga classes should also practice their poses at home. While seniors could remember the general form of the poses, the absence of live instructor coaching made it difficult to remember and apply the correct alignment for each pose. Incorrect alignment decreases the benefits of home practice and can increase the risk of injury.	<p>The ID team created:</p> <ul style="list-style-type: none"> A series of cards depicting various poses and their health benefits. <p>Audio files providing instructions for completing each pose, along with callouts for correct alignment.</p>	IPT 547 Advanced Instructional Design
64.	SP 2012	Pima Community College	Student advisors for the Pharmacy Technology and Veterinary Technology Programs must provide information to potential and current students about all aspects of registering for classes, including course prerequisites. Providing complete and accurate advising information reduces student attrition.	<p>The ID team created detailed instructions that advisors can use in student conferences to:</p> <ul style="list-style-type: none"> Review job roles, relevant personal characteristics, opportunities, and state-required certifications. Explore alternative pathways to program completion. Discuss course scheduling. Review the application process. 	IPT 547 Advanced Instructional Design

#	Semester	Client	Need	Solution	Class
65.	SP 2012	Canadian Forces Grievance Authority (CFGGA)	CFGGA wants commanding officers prevent and resolve personal grievances at their level without otherwise unnecessary and costly escalations. Managing and resolving these disputes would decrease the overall number of grievances and improve operational efficiency.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A process for resolving conflict. • A worksheet to determine the nature of the grievance. • A checklist to facilitate conflict resolution among the disputing parties. • Role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
66.	SP 2012	Canadian Forces Directorate of Cadets and Junior Canadian Rangers	Coaches who teach marksmanship courses must provide target analysis coaching, so cadets and junior rangers can improve their competitive target-shooting scores. Analysis of shot patterns on a target can indicate how to correct shooting errors in ways that will improve marksmanship scores.	The ID team created a self-paced training that included: <ul style="list-style-type: none"> • A job aid for diagnosing various dispersions in shot patterns, identifying errors in shooting technique, and providing corrective coaching. • Authentic demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
67.	SP 2012	Zayed University	<ul style="list-style-type: none"> • Effective talent management depends on performance and development objectives. As meeting this goal requires line managers who write performance reviews of their subordinates to write goals that are specific, measureable, achievable, relevant, and time-bound (SMART). 	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Instructions for writing SMART goals. • Authentic demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
68.	SP 2012	Okland Construction	Project managers must identify and track financial risk using a newly developed Exposure Log spreadsheet. Risks that project managers must track through project completion include construction costs not originally included in the project estimate, material overruns, unforeseen construction conditions, damage to work in place, and subcontractor failure.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A risk process management overview. • A detailed risk identification and project management flowchart. • A decision checklist. • Authentic demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
69.	SP 2012	Cancer Connection	<p>To reach fundraising goals, members of the executive board and volunteers must ask friends, colleagues, and other contacts for donations. "Doing the ask" involves:</p> <ul style="list-style-type: none"> • Sharing stories about how and why they got involved with the organization. • Inventorying the potential donor's talents/contributions. • Sharing the organization's successes and future goals. <p>Offering potential donors the opportunity to build the organization through monetary or other contributions.</p>	<p>The ID team created instructor-led training that included:</p> <ul style="list-style-type: none"> • A brainstorming worksheet for identifying potential donors setting up meetings with them. • Meeting agendas. • A donation request flowchart. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
70.	SP 2011	St. Alphonsus Regional Medical Center	<p>The training group wanted to explore approaches for instructor and participant guides that would train employees how to use software write SMART goals and job competencies.</p>	<p>Two ID teams created:</p> <ul style="list-style-type: none"> • A job aid describing how to write SMART goals. • A job aid describing how to write job competencies. • Prototypes for instructor-led training depicting alternative design concepts. 	IPT 547 Advanced Instructional Design
71.	SP 2011	College of Western Idaho, eLearning & Multimedia	<p>The information technology group wanted to provide instructions describing how to use two different instructor consoles used in different CWI locations.</p>	<p>The ID team created a laminated instruction sheet describing how to use the console features to use different types of media (slides, video, etc.) that instructors could use during classroom lectures.</p>	IPT 547 Advanced Instructional Design

#	Semester	Client	Need	Solution	Class
72.	FA 2010	Idaho Humane Society	Dog adoption assistants must help shelter visitors select the right dog for their lifestyle and setting from an appropriate dog breed group.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A questionnaire for matching setting, lifestyle, and expectations to appropriate dog breed groups. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
73.	FA 2010	Idaho AARP	Medicare benefits counselors must help clients select their plans from a range of those suitable to their needs.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Decision tables specifying how to select 3-6 client-appropriate plans from a larger list generated by the Medicare PlanFinder software. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
74.	FA 2010	Sustainable Futures	Employees must eat healthy on a minimum-wage budget. This involves planning meals, creating a weekly meal plan, and shopping for items on the meal plan.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A worksheet for determining a food budget. • A wallet-sized set of shopping tips. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
75.	SP 2010	North Texas Basset Hound Rescue (NTBHR)	Volunteers must make medical decisions about treating foster dogs. These decisions involve: <ul style="list-style-type: none"> • Obtaining medical information. • Creating a treatment plan with a veterinarian's office. Scheduling follow-up appointments.	The ID team created a self-paced training workbook that included: <ul style="list-style-type: none"> • A medical treatment guide providing instructions and specifying decisions to be made. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
76.	SP 2010	Pierce RV	Sales and service reps must help clients select trailer and fifth wheel hitches based on customer need and vehicle type. Reps must also discuss good/better/best options for the selected type of hitch with the customer.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A form for collecting relevant hitch information. • Flowchart signage helping customers and sales reps select the right type of hitch. • A brochure describing good/better/best options for each type of hitch configuration. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
77.	SP 2010	U.S. Coast Guard Health Services Technician "A" School	Junior medical technicians must translate common parlance terms that patients use to describe their conditions into appropriate medical terminology suitable for a patient's formal record.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A glossary translating the terms patients commonly used into USCG-approved medical terminology suitable for computer entry and patient records. <ul style="list-style-type: none"> ◦ Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
78.	SP 2010	RTI	Customer support reps must troubleshoot hardware and software issues about two different backup systems while communicating with callers.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Detailed instructions for troubleshooting common problems with each system. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
79.	FA 2009	National Interagency Fire Agency (NIFC)	Wildland firefighters must set up and operate a cantankerous 2-cycle pump used to put water from rivers and lakes on forest fires.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Audio files demonstrating what a properly functioning pump should sound like. • Detailed laminated instructions for inclusion with the pump kits. • Authentic role-play demonstrations, practice exercises, and assessment. • This work was featured in: http://news.boisestate.edu/update/2009/12/24/building-skills-while-solving-real-world-performance-problems 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
80.	FA 2009	Boise State University-- Service Learning	Service learning ambassadors must recruit students in on-campus courses to participate in service learning projects. These service-learning components may be optional or required.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Instructions describing how to prepare to recruit students in courses. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
81.	FA 2009	College of Western Idaho-- Electrical Technician's Program	Electronics technicians must conduct OSHA-compliant lockdown and tagout procedures on potentially hazardous electrical equipment.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Wallet cards depicting the lockdown/tagout process • Detailed instructions specifying how to apply the OSHA procedure to a brake press • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
82.	FA 2009	Idaho Humane Society	Volunteers must walk shelter dogs in ways that meet IHS standards and regulations.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Signage informing volunteers of dog-walking processes and standards. • Authentic role-play demonstrations, practice exercises, and assessment. • This work was featured in: http://news.boisestate.edu/update/2009/12/24/building-skills-while-solving-real-world-performance-problems/ 	IPT 537 Instructional Design
83.	SP 2009	Raymond Corporation	Technicians must respond to error codes and alarms that fleet vehicles generate during their regular operation.	The ID team created: <ul style="list-style-type: none"> • Simplified instructions that reduced pages of technical information to 2 laminated pages. • A proof-of-concept prototype depicting components of an automated alarm system. 	IPT 563 Job Aids & Performance Support

#	Semester	Client	Need	Solution	Class
84.	SP 2009	BSU COEN IPT	Document the exemplar performance of the IPT's management assistant on mission-critical tasks so that others can perform them if needed.	The ID team created: <ul style="list-style-type: none"> • A binder of collected job aids describing how to perform 3 key tasks. A proof-of-concept prototype depicting components of a software system that would automate portions of these tasks.	IPT 563 Job Aids & Performance Support
85.	SP 2009	Idaho Secretary of State	Provide guidance for polling booth volunteers on election days who set up the AutoMark—a hardware/software system that the differently abled used to mark their ballots.	The ID team created: <ul style="list-style-type: none"> • Step-by-step instructions describing how to set up the AutoMark. • Proof-of-concept prototypes depicting: <ul style="list-style-type: none"> ○ Laminated instructions for the outside of the AutoMark packing box. Components of a more user-friendly software interface.	IPT 563 Job Aids & Performance Support
86.	FA 2008	Boise State University—Construction Management Department	Construction management students must calculate material estimates for bids. The instructor wants a way to avoid teaching such remedial concepts in in the classroom.	The ID team created a self-paced instructional workbook that included: <ul style="list-style-type: none"> • Job aids for calculating material estimates. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
87.	FA 2008	Boise State University—Instructional and Performance Technology Department	Students must specify, collect, and analyze research data. The instructor wants to minimize classroom time otherwise spent on this topic.	The ID team created a self-paced instructional workbook that included: <ul style="list-style-type: none"> • Job aids collecting and analyzing data. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
88.	FA 2008	Idaho Secretary of State	Chief judges who supervise polling stations on election day must layout the station and schedule volunteers to fill key positions in ways that meet State and Federal election requirements.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A job aid describing how to configure a polling station. • A staffing job aid. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
89.	FA 2008	Idaho Region IV Adult and Children's Behavioral Health	Designated Examiners must determine whether clients in jail are gravely disabled. They must make and document concise, accurate, and defensible determinations about clients who may be remanded to the State's health care system or remain within the criminal justice system.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A job aid for determining whether a client is gravely disabled. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
90.	SP 2008	US Coast Guard	Cadets at the Coast Guard Academy must write goals for their individual development plans that are specific, measurable, actionable, realistic, and timely (SMART).	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A job aid describing how to write SMART goals. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
91.	SP 2008	Fredericksburg Family Support Group for Autism	Parents of autistic children must write specific, measurable, actionable, realistic, and timely (SMART) goals for their children's individualized education plans (IEPs).	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • A job aid for writing SMART goals. • An IEP template. • Instructions for writing an IEP. • Authentic role-play demonstrations, practice exercises, and assessment. 	IPT 537 Instructional Design
92.	SP 2008	Boise State University—Instructional and Performance Technology Department	Document how the IPT department's system administrator performs mission-critical software tasks using Lotus Notes so that others can perform them if needed.	<ul style="list-style-type: none"> • A binder of collected job aids describing how to perform 3 key tasks. A proof-of-concept prototype depicting components of a software system that would automate portions of these tasks. 	IPT 563 Job Aids & Performance Support
93.	SP 2008	Boise State University—Instructional and Performance Technology Department	Document how the IPT department's management assistant performs mission-critical tasks so that others can perform them if needed.	<ul style="list-style-type: none"> • A binder of collected job aids describing how to perform 4 key tasks. A proof-of-concept prototype depicting components of a software system that would automate portions of these tasks. 	IPT 563 Job Aids & Performance Support

#	Semester	Client	Need	Solution	Class
94.	FA 2007	Lorman Education Services	Department leaders must identify gaps between actual and desired performance that are worth closing. Troubleshoot the root causes of each gap worth closing.	The ID created instructor-led training that included: <ul style="list-style-type: none"> • Worksheet for specifying performance gaps and whether they are worth closing. • Worksheet for troubleshooting root causes of a performance gap. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
95.	FA 2007	Boise State University—International Programs Office	International learners must prepare job resumes and prepare for interviews.	The ID created instructor-led training that included: <ul style="list-style-type: none"> • Sample resumes and cover letters. • Resume checklist. • An appearance/behavior plan. • Interview checklist Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
96.	FA 2007	Boise State University—Faculty/Staff Blackboard Training	Faculty using Blackboard must post syllabi, announcements, staff profiles.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> • Step-by-step instructions for entering information. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
97.	FA 2007	Boise State University—College of Business and Economics	Strategic Peer Advising Workshop for Graduate Assistants.	The ID created instructor-led training that included: <ul style="list-style-type: none"> • Advising tips • Instructions for entering advising information into a proprietary database. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
98.	FA 2007	Boise State University—Financial Aid and Scholarship Office	Financial aid personnel must use NOLIJ software to manage students' electronic documents.	The ID created instructor-led training that included: <ul style="list-style-type: none"> • A system diagrams • Instructions describing how to: <ul style="list-style-type: none"> ○ Retrieve student electronic folders. ○ Route student electronic documents. ○ Rename student electronic documents. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design

#	Semester	Client	Need	Solution	Class
99.	FA 2007	Ronnie Scott	Senior patrons must complete strength training for the prevention of osteoporosis.	The ID created instructor-led training that included: <ul style="list-style-type: none"> Guides for exercising the upper body, abdominals, and lower body. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
100.	FA 2007	Boise State University— Selland College of Applied Technology	Electronics technicians must troubleshoot resistive series-parallel circuits.	The ID created instructor-led training that included: <ul style="list-style-type: none"> Schematics. Instructions for diagramming circuits using Multisim software. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
101.	FA 2007	Wells Fargo Financial	Sales associates interacting with customers must increase mortgage sales during their customer calls.	The ID team created instructor-led training that included: <ul style="list-style-type: none"> Instructions for determining a suitable mortgage loan. Instructions for completing a mortgage loan application. Authentic role-play demonstrations, practice exercises, and assessment.	IPT 537 Instructional Design
